Parasuit R&D – a competitive edge?

The amazingly good CSS 3D Solar System coding at codepen.io is by@JulianGarnier. Click the picture to see the code in action! Use the controls at right to change display options.

When reading about IIT Madras graduate Naga Naresh Karutura, I do not see a “double amputee”. Instead, high potential to be an ISRO astronaut flight specialist candidate.

- * Software engineer at Alphabet (aka Google).
- * Professional problem-solver.
- * Eternally dogged optimist.
- * Amputean°

In micro-gravity, Parasuit°-enabled Amputean° and Paraplegian° Astronauts may have the competitive edge. Industries and cultures embracing the perspective shift gain competitive edge, too.

° I've coined these words, having noticed they somehow convey a sense of **uplifting**. Everyone needs an uplift, now and then.
